

БУРЯТИЯ 100 ЛЕТ

Dear colleagues!

Federal State Budgetary Institution of Science

Baikal Institute of Nature Management

of the Siberian Branch of the Russian Academy of Sciences (BINM SB RAS)

invites you to take part in

All-Russian Youth Scientific Conference with International Participation "
"Problems of Sustainable Regional Development",
devoted to the 100 anniversary of the Republic of Buryatia

held from June 29 till July 4, 2023

The conference is held with the support of:

Ministry of Science and Higher Education of the Russian Federation

Russian Center for Scientific Information

Federal State Budgetary Educational Institution Dorzhi Banzarov Buryat State University

Since 1999, BINM SB RAS has held nine schools-seminars for young scientists of Russia "Problems of Sustainable Regional Development" once every 2-3 years. The seminars were attended by about 700 young scientists from different regions of the country and neighboring countries. It is especially encouraging that many of the participants attended the seminars repeatedly, and some of the young scientists from the section speakers have become lecturers at the school-seminar. On the eve of the 10th anniversary school-seminar, the organizing committee, recognizing the increasing scientific importance of the event, decided to change its status to the All-Russian youth scientific conference with international participation.

The chairs of the organizing committee are Corresponding Member of the Russian Academy of Sciences E.Zh. Garmaev and Rector of the Buryat State University A.V. Damdinov. The conference is aimed at information exchange, expansion of contacts among young scientists, coordination of scientific research, and sharing scientific experience in the field of sustainable development research. At the conference, young scientists will discuss a wide range of basic and applied scientific problems in the following areas:

- 1. Socio-economic problems of Sustainable Development of the regions of Russia.**
- 2. Geo-ecological problems of the regions of Russia and the adjacent territories in the context of globalization and environmental changes.**
- 3. Modern eco-friendly technologies of nature management and environmental protection.**
- 4. Preparation of the perspective of organic, inorganic compounds and materials based on them.**

The conference program includes a round table "International Cooperation of Young Scientists of Russia, Mongolia, and China".

The Organizing Committee invites leading scientists to give lectures on the above topics. Lecturers pay 50% of the organizational fee.

Abstracts of reports and lectures of the conference will be published in the electronic edition and included in the Russian Science Citation Index (RSCI) abstract database.

The Organizing Committee reserves the right to review materials and decline the participation in the conference. The number of participants is limited.

Venue:

International ecological and educational center "Istomino" (on the shore of Lake Baikal, 140 km from Ulan-Ude) <http://www.binm.ru/istomino/>.

Time frame of the conference:

Plenary report - 20 min

Lecture - up to 1 hour

Sectional report - 10 min

Program includes an excursion day with a visit to the Baikalsky State Nature Biosphere Reserve <https://baikalzapovednik.ru/> and the "Baikal Reserve" Visitor Center <https://baikalecotourism.ru/baikalreserved>

Deadlines:
